

Use up to 25% less material than other adhesives.

The Proven Performer for Adhesive Attachment of Roof Insulation.

DOW INSTA STIK™ Quik Set Commercial Roofing Adhesive is a one-component, moisture-cured polyurethane adhesive for attaching compatible roof insulation boards to roof decks and substrates. Because it is a single-component foam, INSTA STIK™ Quik Set is always on ratio and saves the time and concern over mixing two components on the roof. The same formulation is used for both summer and winter months and works well in a wide range of temperatures, extending the practical working season and hours. And since INSTA STIK™ requires no special application equipment or power sources, it is easy and economical to apply.

Other advantages of INSTA STIK™ Quik Set:

- Lowest cost per square of the leading commercial roofing adhesives – a 20% to 25% average material savings.
- Longest shelf life in the industry – 15 months.
- Resists effects of freeze/thaw cycles.
- No obnoxious odor or noise.
- Environmentally-friendly – no VOC's and the tank is recyclable.
- Clean, controlled application – no overspray.
- No building height restrictions.
- Can be used to attach multiple insulation layers and coverboards.
- 10-year warranty standard*; 15 and 20-year warranties available.
- Distributed and supported "nationwide" by TRUFAST, The National Distributor of Dow INSTA STIK™ Quik Set Adhesive.

* Must submit pre-qualification forms

Don't get stuck with adhesives requiring expensive, cumbersome dispensing equipment.

Where Are Your Fasteners Made?

TRUFAST

A seemingly simple, obscure piece of hardware, a fastener (screw) is a critical component that ensures the integrity of an assembly -- especially a roof system. And bent, slow driving, or improperly heat treated screws that strip out or break create costly and frustrating delays during roof installation or repair. As part of the ALTENLOH, BRINCK & CO. Group, TRUFAST Fasteners reflect long-proven German cold-forming engineering technology and 100% U.S. manufacturing under stringent quality, environmental, and safety standards at its ISO 9001:2008 certified facility in Northwest Ohio.

Your customers are expecting roof systems that meet industry testing specifications. Shouldn't you be assured that the fasteners you use or supply are manufactured to the same high standard?

For more information, samples, or pricing on the complete line of American-made TRUFAST fastening solutions, please contact your local TRUFAST Distributor, or contact the ABC / TRUFAST Sales Service Department at **800-443-9602** or sales@trufast.com. Buy TRUFAST – products and people you can trust!

Simple, Cost-Saving Roof Insulation Attachment Solutions

Stick with a proven performer: Dow INSTA STIK™ Quik Set from TRUFAST!

TRUFAST

Mechanical Attachment Made Faster, Easier.

TRUFAST originated the combination of the pre-assembled roofing fastener and insulation plate to increase the productivity of attaching insulation to metal and wood roof decks. Together with specially designed tools and accessories for fastener placement and attachment, TRUFAST offers a simple, economical, and ergonomic "system solution" to increase productivity in the mechanical attachment of roof insulation.

TRUFAST Pre-assembled fasteners and plates feature a #12 drill point fastener with a 3" Galvalume™ plate and are available in #3 Phillips Truss Head (PA) and 1/4" Hex Head (PAH) styles. The combination of a durable canvas fastener bag and a lightweight, adjustable magnetic setter tool allows a roofer to quickly and accurately place fasteners in the desired fastening pattern without bending over.

The lightweight and easy to maneuver TRUFAST 0-2500 rpm Stand-up Power Tool allows the operator to quickly and comfortably drive the fasteners to the proper depth without special training.

Other features and advantages of the TRUFAST PA System:

- No expensive capital investment in special equipment.
- Lightweight, ergonomically-friendly tools and accessories help maintain worker productivity.
- Variable speed 29" Stand-up Power Tool features a specially designed nosepiece with depth adjustment to eliminate under/over-driving of fasteners.
- Simple, practical tool design requires no special training to operate, helps ensure prolonged reliable operation, and eliminates costly downtime and repairs.
- Double-flute drill point fasteners with tapered wedge entry thread design provide unmatched drilling performance and back-out resistance for fast, reliable mechanical attachment.

Cover 33% more area per day over conventional fastening methods.

The TRUFAST PA System™ Ordering Information

The TRUFAST PA System consists of the following fasteners, tools, and accessories:

- Choice of pre-assembled #12 Drill Point Fastener and 3" Galvalume Plate in either Phillips Truss or Hex head styles.
- Magnetic Setter Tool
- Fastener Bag (500 capacity)
- 29" Stand-up Electric Power Tool, 0-2500 rpm*

* Designed for use with TRUFAST PA and PAH Pre-assembled fasteners & plates

#12 TRUFAST DP Phillips Truss Head Fasteners & 3" Galvalume™ Insulation Plate

Drive	Length	Part No.	Pkg. Qty. / Type

Dow INSTA STIK™ Quik Set Commercial Roofing Adhesive Ordering Information

TRUFAST offers Dow INSTA STIK™ Quik Set Adhesive as "tank only" units. Hose & Wand Dispensing Kits must be ordered separately. Note: When ordering multiple tank only units, it is recommended that one (1) Hose & Wand Dispensing Kit be ordered for every three (3) INSTA STIK tanks.

Part No.	Description	Yield	Shelf Life	Weight	Pallet Qty.
308916	INSTA STIK Quik Set -- Tank Only	8-9 Squares*	15 Months	31 lbs.	40 Tanks

* 3/4" to 1" beads, 14" on center.

WARRANTY
The Dow Chemical Company will warrant, at no additional cost, the adhesion of INSTA STIK™ Quik Set Commercial Roofing Adhesive for a period of ten (10) years to specified compatible material and substrates, upon completion and submission of Dow pre-job qualification forms. 15- and 20-year warranties are also offered by Dow at addition cost. For more information, go to www.dowadhesives.com/warranty.

INSTA STIK Dispensing Accessories

INSTA STIK requires no expensive dispensing equipment nor an external power source. The INSTA STIK Hose & Wand Kit is easy to use and requires no special training. Multi-Bead Applicator attachments allow an operator to apply 2 or 4 beads of adhesive accurately spaced 14" on center.

Part No.	Description	Pkg. Qty.
IS1D	Hose & Wand Kit*	1

* Kit includes 4 ft. hose and on/off valve, 2-pc. wand, coupler and wrench
Notes: Recommended to use 1 Hose & Wand Kit per 3 tanks of adhesive.

Dow Multi-Bead Applicator Cart Assembly

Model 158414
The Dow Multi-Bead Applicator (MBA) allows a single operator to quickly apply four to eight beads of INSTA STIK Adhesive, accurately spaced and evenly dispensed as per Dow application guidelines. Accommodates up to three tanks. Ideal for medium to large jobs with few through-roof penetrations.
