

## TRUFAST ROOFING ANNOUNCES EASYSEAL RETROFIT ALUMINUM DRAIN

*TRUFAST is a Trusted Partner for Whole Building Envelope Attachment Solutions that include Fasteners, Adhesives & Accessories*

BRYAN, OH – TRUFAST, a division of Altenloh, Brinck & Co. US, Inc., is announcing the release of the EasySeal™ Retrofit Roof Drain with mechanical seal. This feature-rich drain is designed to quickly address the need to replace existing roof drains in a re-roofing application. The all-aluminum construction assures durability with the use of heavy duty (0.125") aluminum. The mechanical seal offers superior protection against water backup. It is available with a variety of flange options (plain aluminum, TPO clad, and PVC clad) to accommodate most roofing systems.

The installation tool to use with the mechanical seal is included in every drain box. There is no need to keep uncommon screw drivers in the contractor's toolbox. Visit [www.trufast.com](http://www.trufast.com) to find a distributor near you and ask for Trufast!

###

Founded in 1981 in Bryan, Ohio, the TRUFAST began manufacturing and distributing unique and better performing fastening solutions for the commercial roofing industry. As its product offering grew to include other engineered fastening solutions and accessories, the TRUFAST brand developed a reputation for high-quality products and outstanding customer service. The company was acquired by Altenloh, Brinck & Co. US, Inc., in 2005 and remains a strong brand in the ABC US organization.
